

Electrosoft Newsletter: Q2 2021

# What's Happening at Electrosoft?

In the second quarter of 2021, we officially and jubilantly marked Electrosoft's 20th anniversary. "Results that drive mission success" is more than a tagline for us and we're proud that these 20 years were spent supporting federal government with services – and customer service – that makes a difference. This quarter, we also celebrated receiving industry recognition as a top workplace, winning a BPA with a new customer and successfully co-hosting a cybersecurity webinar for more than 200 participants.

2021

The Washington Post

It's always gratifying when Electrosoft receives industry recognition for our company growth and leadership. Still, when employees are saying good things about our company, it's truly special.

We are truly honored that The Washington Post has named Electrosoft a [2021 Washington Post Top Workplace](#) – for the second year in a row!

Awards are based solely on employee feedback that measures employee engagement and leadership as well as pay, benefits, flexibility and training.

"From the start of Electrosoft 20 years ago, we've aimed to offer employees the chance to do work that matters in an environment that supports their professional growth and connection," said Dr. Sarbari Gupta, Electrosoft CEO. "We are honored and proud to be recognized again this year for the special workplace we've created."

## Electrosoft Awarded \$300 Million U.S. Department of Education Cybersecurity BPA

Whenever a new government agency sees the value of what our Electrosoft team delivers to our federal civilian and defense customers – and how we deliver those services – it's a win for all involved. We built Electrosoft on a foundation of deep technology expertise and have since gained tremendous cybersecurity experience to meet the escalating and emerging needs for a secure government.

In Q2, we were awarded a spot on the [Department of Education \(DoED\) \\$300 million blanket purchase agreement](#) to provide cybersecurity and privacy support services. We look forward to working with this new customer, serving the DoED Federal Student Aid (FSA) and the Office of the Chief Information Officer (OCIO). Thank you, DoED!

## Electrosoft Co-Hosts ICAM and Zero Trust Cybersecurity Summit

Electrosoft is an engaged and collaborative cybersecurity industry innovator and thought leader. We're committed to learning, to teaching, to engaging in conversations designed to tackle today's most pressing cybersecurity challenges.

In April, Electrosoft co-hosted our third-in-a-series Cybersecurity Summit webinar, in collaboration with the nonprofit association ITPA-CC. Featuring thought leaders from government and industry, the "Meeting the Cyber Challenges for the Future" virtual event focused on Identity, Credential and Access Management (ICAM) and Zero Trust.

More than 200 professionals joined us for this important and insightful conversation. Visit the [ELECTROSOFT RESOURCES PAGE](#) to watch the full video recording.

## #ICYMI: Electrosoft CEO on NoVA Business Podcast

Our CEO, Dr. Sarbari Gupta, recently appeared as a guest on the NoVA Business Podcast, which is designed to share inspiring stories of leaders shaping the Northern Virginia community.

If you haven't yet watched the "Meeting the Challenges of Cybersecurity" episode, get ready for an engaging mix of professional and personal stories. Discover Dr. Gupta's path from Kolkata, India to leading one of the fastest-growing cybersecurity companies in Northern Virginia. And prepare to learn how Dr. Gupta views the fine balance between user experience and security, the use of biometric data and the potential of blockchain in helping to secure our nation against cybersecurity attacks.
